...chain. You only do the things that will add value to your part of the
supply chain, or what *some* call the value chain.

Optimizing the supply chain means taking the big picture point of view.
For *returnable* *containers* this means planning an entire program, not
purchasing a container and shipping parts.

...chain. You only do the things that will add value to your part of the
supply chain, or what *some* call the value chain.

Optimizing the supply chain means taking the big picture point of view.
For *returnable* *containers* this means planning an entire program, not
purchasing a container and shipping parts.
Along with...
